Our corporate governance statement² for the above period above can be found at:³

- These pages of our annual report:
- This URL on our website: www.amanigold.com/corporate-governance.

The Corporate Governance Statement is accurate and up to date as at 30 June 2017 and has been approved by the board.

The annexure includes a key to where our corporate governance disclosures can be located.

Date: 28 September 2017

Name of Director or Secretary authorising
lodgement: Susmit Shah

¹ Under Listing Rule 4.7.3, an entity must lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of rule 4.10.3.

² "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

³ Mark whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where the entity's corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable. If you select an option that includes "OR" at the end of the selection and you delete the other options, you can also, if you wish, delete the "OR" at the end of the selection.

The Board is committed to administering the policies and procedures with openness and integrity, pursuing the true spirit of corporate governance commensurate with the Company's needs. To the extent they are applicable and given its size and circumstances the Company has adopted the Eight Essential Corporate Governance Principles and Recommendations ("Recommendations"), as published by ASX Corporate Governance Council ("CGC").

The Company's directors are fully cognisant of the Corporate Governance Principles and Recommendations published by CGC and have adopted those recommendations where they are appropriate to the Company's circumstances. However, a number of those principles and recommendations are directed towards listed companies considerably larger than Amani Gold Limited, whose circumstances and requirements accordingly differ markedly from the Company's. For example, the nature of the Company's operations and the size of its staff mean that a number of the Board committees and other governance structures recommended by the CGC are not only unnecessary in Amani's case, but the effort and expense required to establish and maintain them would, in the directors' view, be an unjustified diversion of shareholders' funds.

As the Company's activities develop in size, nature and scope, the size of the Board and the implementation of additional corporate governance structures will be given further consideration.

ASX Listing Rule 4.10.3 requires listed companies to disclose in their Annual Report (or alternatively provide a cross reference to where the relevant information is provided on the company's website) the extent to which they have complied with the ASX Best Practice Recommendations of the ASX Corporate Governance Council in the reporting period. A description of the Company's main corporate governance practices is set out below. The Corporate Governance Statement is current as at 30 June 2017, and has been approved by the Board of Directors. All these practices, unless otherwise stated, were in place for the entire year. They comply with the ASX *Corporate Governance Principles and Recommendations (3rd edition)*.

The Company's website at www.amanigold.com contains a corporate governance section that includes copies of the Company's corporate governance policies.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (continued)

Principle 1: Lay solid foundations for management and oversight

Recommendation 1.1:

Companies should disclose the respective roles and responsibilities of its board and management and those matters expressly reserved to the Board and those delegated to management and disclose those functions.

The Board's role is to govern the Company rather than to manage it. In governing the Company, the Directors must act in the best interests of the Company as a whole. It is the role of the senior management to manage the Company in accordance with the direction and delegations of the Board and the responsibility of the Board to oversee the activities of management in carrying out these delegated duties.

The Board is responsible for:

- Determining the vision and objectives of the Company;
- Overseeing and fostering an appropriate culture for the Company that is directly aligned to its values, strategies and objectives;
- Reviewing and approving the Company's financial position, systems of risk management and internal compliance and control, codes of conduct and legal compliance;
- Identifying all areas where written board policy is required, detailing the policies, and overseeing the implementation and monitoring of compliance;
- Formulating short term and long term strategies to enable the Company to achieve its objectives, and ensuring adequate resources are available to meet strategic objectives;
- Approving and monitoring the progress of major expenditure and acquisitions and divestments;
- Approving the annual budgets, and ensuring these are aligned with the Company's strategic objectives;
- Being responsible for the Company's senior management and personnel including appointing and, where appropriate, removing the Chairman;
- Ratifying the appointment, and where appropriate, the removal of the Executive Directors and the Company Secretary;
- Evaluating the performance of the senior management team and determining their remuneration;
- Delegating appropriate powers to senior management to ensure the effective day-to-day management of the business and monitoring the exercise of these powers;
- Ensuring that policies and procedures in place are consistent with the Company's objectives, and that the Company and its officers act legally, ethically and responsibly in all matters.
- Ensuring corporate accountability to the shareholders primarily through adopting an effective shareholder communications strategy.

The (part-time) Executive Chairman is responsible for the attainment of the Company's goals and vision for the future, in accordance with the strategies, policies, programs and performance requirements approved by the Board.

The Chairman's specific responsibilities include:

- Responsibility for the achievement of corporate goals and objectives;
- Development of short, medium and long term corporate strategies and planning to achieve the Company's vision and overall business objectives;
- Implementing and monitoring strategy and reporting/presenting to the Board on current and future initiatives;
- Assessment of business opportunities of potential benefit to the Company;
- Establish and maintain effective and positive relationships with Board members, shareholders, the investment community and other government and business liaisons;
- Undertake the role of key company spokesperson;
- Ensure statutory, legal and regulatory compliance and comply with corporate policies and standards;
- Ensure appropriate risk management practices and policies are in place; and
- Select and appoint staff.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (Continued)

In discharging these responsibilities, the Chairman is assisted by the Company Secretary from time to time in accordance with the Chairman's instructions. This statement of matters reserved for the Board and areas of delegated authority to the Executive Chairman and senior executives is contained in the Board Charter posted on the Company's website.

Recommendation 1.2:

Companies should undertake appropriate checks before appointing a person, or putting forward to security holders a candidate for election, as a director and provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.

The Company undertakes checks on any person who is being considered as a director. These checks may include character, experience, education and financial history and background.

All security holder releases will contain material information about any candidate to enable an informed decision to be made on whether or not to elect or re-elect a director.

Recommendation 1.3:

Companies should have a written agreement with each director and senior executive setting out the terms of their appointment.

The non-executive directors have a letter of appointment including a director's interest agreement with respect to disclosure of security interests. The Executive Chairman does not have a formal letter of appointment but terms and conditions have been agreed in correspondence and Board resolutions.

Recommendation 1.4:

The Company Secretary should be accountable directly to the Board, through the chair, on all matters to do with the proper functioning of the Board.

The Company Secretary has a direct reporting line to the Board, through the Chair.

Recommendation 1.5:

The Company should establish a policy concerning diversity and disclose the policy or summary of the policy. The policy should include requirements for the Board to establish measureable objectives for achieving gender diversity and for the Board to assess annually both the objectives and progress in achieving them.

The Company recognises that a talented and diverse workforce is a key competitive advantage. The Company is committed to developing a workplace that promotes diversity. The Company's policy is to recruit and manage on the basis of competence and performance regardless of age, nationality, race, gender, religious beliefs, sexuality, physical ability or cultural background. The Company has not yet formalised this policy into a written document. It is the Board's intention to formalise the policy at a time when the size of the Company and its activities warrants such a structure.

The Amani Group has approximately 13 full time and full time equivalent staff, of which 1 is a woman. At the Giro Gold project site there are also 49 additional personnel whose services are provided through a contractor and 10 of those personnel are women. There are no women in senior executive positions or on the board.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (Continued)

Recommendation 1.6:

The Company should have and disclose a process for periodically evaluating the performance of the Board, its committees and individual directors and whether a performance evaluation was undertaken in the reporting period in accordance with that process.

Due to the size of the Board and the nature of its business, it has not been deemed necessary to institute a formal documented performance review program of individuals. The Chairman conducted an informal review during the financial year whereby the performance of the Board as a whole and the individual contributions of each director were discussed. The Board considers that at this stage of the Company's development an informal process is appropriate.

Recommendation 1.7:

The Company should have and disclose a process for periodically evaluating the performance of senior executives and whether a performance evaluation was undertaken in the reporting period in accordance with that process.

The Board undertakes a review of the senior executives' performance, at least annually, including setting the goals for the coming year and reviewing the achievement of these goals.

Performance has been measured to date by the efficiency and effectiveness of the enhancement of the Company's mineral interest portfolio, the designing and implementation of the exploration and development programme and the securing of ongoing funding so as to continue its exploration and development activities. This performance evaluation is not based on specific financial indicators such as earnings or dividends as the Company is at the exploration stage and during this period is expected to incur operating losses.

Due to the size of the Company and the nature of its business, it has not been deemed necessary to institute a formal documented performance review program of senior executives. The Chairman conducted an informal review process whereby he discussed with senior executives the approach toward meeting the short and long term objectives of the Company. The Board considers that at this stage of the Company's development, an informal process is appropriate.

Principle 2: Structure the Board to add value

Recommendation 2.1:

The Board should establish a Nomination Committee of which the majority should be independent directors (including the Chair).

The Company does not have a nomination committee. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity, to justify the formation of separate or special committees at this time. The Board as a whole is able to address the governance aspects of the full scope of the Company's activities and to ensure that it adheres to appropriate ethical standards. In particular, the full Board considers those matters that would usually be the responsibility of a nomination committee. The Board considers that no efficiencies or other benefits would be gained by establishing a separate nomination committee.

Directors are appointed under the terms of the Company's constitution. Appointments to the Board are based upon merit and against criteria that serves to maintain an appropriate balance of skills, expertise, and experience of the board. The categories considered necessary for this purpose are a blend of accounting and finance, business, technical and administration skills. Casual appointments must stand for election at the next annual general meeting of the Company.

Retirement and rotation of Directors are governed by the Corporations Act 2001 and the Constitution of the Company. All Directors, with the exception of the Managing Director (if appointed), serve for a period of three years before they are required to retire and, if eligible, may offer themselves for re-election.

Corporate Governance Statement

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (Continued)

Recommendation 2.2:

The Company should have and disclose a Board skills matrix setting out the mix of skills and diversity that the Board currently has or is looking to achieve in its membership.

For the reporting period ended 30 June 2017, the Board has comprised a (part-time) Executive Chairman (geologist by profession), two non-executive directors (geologists by profession) and one non-executive director who is also the company secretary (an accountant by profession).

Each director has the right of access to all relevant company information and to the Company's employees and, subject to prior consultation with the Chairperson, may seek independent professional advice from a suitably qualified adviser at the Company's expense. The director must consult with an advisor suitably qualified in the relevant field, and obtain the Chairperson's approval of the fee payable for the advice before proceeding with the consultation. A copy of the advice received by the director is made available to all other members of the board.

Recommendation 2.3:

The Company should disclose the names of the directors considered to be independent directors and length of service of each director.

The names, experience and responsibilities of Directors of the Company in office at the date of this statement are set out in the Directors' Report (including names of the directors considered to be independent directors and length of service of each director). Mr Mark Calderwood and Mr Kevin Thomson can be considered to be independent directors during the reporting period (in prior periods, they were associated with substantial shareholder, Perseus Mining Limited and therefore could not be considered independent).

Recommendation 2.4:

A majority of the Board of the Company should be independent directors.

In assessing whether a director is classified as independent, the Board considers the independence criteria set out in the ASX Corporate Governance Council Recommendation 2.1 and other facts, information and circumstances deemed by the Board to be relevant. Using the ASX Best Practice Recommendations on the assessment of the independence of Directors, the Board considers that two of the 4 Directors holding office during the reporting period can be considered to be independent and therefore the Company does not currently have a majority of independent directors. The Company considers that each of the directors possesses the skills and experience suitable for building the Company and that although the Company does not currently have a majority of independent directors, the current composition of the Board is appropriate for the Company's current size and operations.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (Continued)

The Board takes the responsibilities of best practice in corporate governance seriously. It is the Board's intention to review its composition on a continual basis as the Company expands its activities and greater demands and skills amongst Directors become necessary.

Recommendation 2.5:

The Chair of the Board should be an independent director, and should not be the CEO of the Company.

The Chairman for the reporting period, Mr Klaus Eckhof, is considered the "lead" Director and utilises his experience, skills and leadership abilities to facilitate the governance processes. However, he is not an independent Director as he performs a part-time executive role and, prior to his appointment as Chairman in August 2014, he was the Company's CEO and Managing Director.

Recommendation 2.6:

The Company should have a program for inducting new directors and provide appropriate professional development opportunities for directors to develop and maintain the skills and knowledge needed to perform their role as directors effectively.

The Board Charter provides for induction and professional development for the Board.

Principle 3: Act ethically and responsibly

Recommendation 3.1:

Companies should have a Code of Conduct for its directors, senior executives and employees.

The Company has developed a Code of Conduct (the Code) which has been endorsed by the Board and applies to all employees, Directors and officers. The Code may be amended from time to time as necessary to ensure it reflects the practices necessary to maintain confidence in the Company's integrity and to take into account legal obligations and reasonable expectations of the Company's stakeholders. The Code outlines the responsibility and accountability of Company personnel to report and investigate reports of unethical practices. A copy of the Code is available on the Company's website.

Trading in Company securities is regulated by the Corporations Act and the ASX Listing Rules. The Board makes all Directors, officers and employees aware on appointment that it is prohibited to trade in the Company's securities whilst that Director, officer or employee is in the possession of price sensitive information.

For details of shares held by Directors and officers please refer to the Directors' Report. Directors are required to report to the Company Secretary any movements in their holdings of Company securities, which are reported to ASX in the required timeframe prescribed by the ASX Listing Rules.

Principle 4: Safeguard Integrity in Financial reporting

Recommendation 4.1

The Board should have an Audit Committee.

The Company does not have an audit committee. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity, to justify the formation of separate or special committees at this time. The Board as a whole is able to address the governance aspects of the full scope of the Company's activities and to ensure that it adheres to appropriate ethical standards. In particular, the full Board considers those matters that would usually be the responsibility of an audit committee. The Board considers that no efficiencies or other benefits would be gained by establishing a separate audit committee.

The Company requires external auditors to demonstrate quality and independence. The performance of the external auditor is reviewed and applications for tender of external audit services are requested as deemed appropriate, taking into consideration assessment of performance, existing value and tender costs.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (Continued)

The audit engagement partner from auditors, BDO Audit (WA) Pty Ltd is subject to rotation rules under the Corporations Act.

Recommendation 4.2

The Board of the Company should, before it approves the Company's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

The Executive Chairman and the Company Secretary have declared in writing to the Board that the Company's financial statements for the year ended 30 June 2017 present a true and fair view, in all material aspects, of the Company's financial condition and operational results and are in accordance with relevant accounting standards, that this is founded on a sound system of risk management and internal compliance and control and that the Company's risk management and internal compliance and control system is operating efficiently and effectively. This representation is made by the Executive Chairman and Company Secretary prior to the Director's approval of the release of the annual and half yearly accounts. This representation is made after enquiry of, and representation by, appropriate levels of management.

Recommendation 4.3

The Company should ensure that the external auditor is present at the AGM and be available to answer questions from security holders relevant to the audit.

The Company invites the auditor or representative of the auditor to the AGM.

Principle 5 – Make timely and balanced disclosure

Recommendation 5.1:

Companies should have a written policy for complying with its continuous disclosure obligations under the Listing Rules.

The Company has developed an ASX Listing Rules Disclosure Strategy which has been endorsed by the Board. The ASX Listing Rules Disclosure Strategy ensures compliance with ASX Listing Rules and Corporations Act obligations to keep the market fully informed of information which may have a material effect on the price or value of its securities and outlines accountability at a senior executive level for that compliance. All ASX announcements are to be posted to the Company's website as soon as possible after confirmation of receipt is received from ASX, including all financial reports.

Principle 6 – Respect the rights of security holders

Recommendation 6.1:

Companies should provide information about itself and its governance to investors via its website.

The Company is committed to maintaining a Company website with general information about the Company and its operations, information about governance and information specifically targeted at keeping the Company's shareholders informed about the Company. In particular, where appropriate, after confirmation of receipt by the ASX, the following are posted to the Company's website:

- relevant announcements made to the market via the ASX;
- notices of meetings;
- investment updates;
- company presentations and media releases;
- copies of press releases and announcements for (at least) the preceding three years; and

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (Continued)

- copies of annual, half-yearly and quarterly reports including financial statements for (at least) the preceding three years.

Recommendations 6.2 and 6.3:

Companies should design and implement an investor relations program to facilitate two-way communication with investors.

Companies should disclose the policies and processes it has in place to facilitate and encourage participation at meetings of security holders.

The Executive Chairman makes himself available to meet shareholders and regularly responds to enquiries made via telephone or email. He also completes periodic investor presentations to facilitate engagement with investors and other financial market participants. From time to time other directors and nominated senior management will also engage with shareholders and investors generally.

The Board encourages full participation of shareholders at the Annual General Meeting. In preparing for general meetings of the Company, the Company drafts the notice of meeting and related explanatory information so that shareholders are provided with all of the information that is relevant to shareholders in making decisions on matters to be voted on by them at the meeting. The Company allows shareholders a reasonable opportunity to ask questions of the Board of Directors and to otherwise participate in the meeting. The external auditor of the Company is asked to attend each annual general meeting and to be available to answer shareholder questions about the conduct of the audit and the preparation and content of the auditor's report. Important issues are presented to the shareholders as single resolutions. The shareholders are also responsible for voting on the appointment of Directors.

Recommendation 6.4:

Companies should give security holders the option to receive communications from, and send communications to, the entity and its security registry electronically.

Information about the Company is regularly emailed to all shareholders who lodge their email contact details with the Company. Information on lodging email addresses and on submitting information requests with the Company is available on the Company's website. Shareholders can receive communications from, and send communications to, the Company's security registry electronically.

Principle 7 – Recognise and manage risk

Recommendation 7.1:

The Board should have a committee or committees to oversee risk.

The Company is not currently of a size to require the formation of committees to oversee risk. The full Board has the responsibility for the risk management, compliance and internal controls systems of the Company.

Senior management is responsible for designing, implementing and reporting on the adequacy of the Company's risk management and internal control system. The Company's risk management policy is designed to provide the framework to identify, assess, monitor and manage the risks associated with the Company's business. The Company adopts practices designed to identify significant areas of business risk and to effectively manage those risks in accordance with the Company's risk profile. The risks involved in a resources sector company and the specific uncertainties for the Company continue to be regularly monitored. All proposals reviewed by the Board include a consideration of the issues and risks of the proposal.

Recommendation 7.2:

The Board should review the entity's risk management framework at least annually to satisfy itself that it continues to be sound and disclose whether such a review has taken place.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (Continued)

The Board considers risks on an on-going basis and discusses risk management at each Board meeting. Review of the risk management framework is an on-going process rather than an annual formal review. The Company's main areas of risk include:

- Geological and technical risk posed to exploration and commercial exploitation success;
- Sovereign risk, change in government policy, change in mining and fiscal legislation;
- prevention of access by reason of inability to obtain regulatory or landowner consents or approvals, or native title issues;
- retention of key staff;
- change in metal market conditions;
- mineral title tenure and renewal risks; and
- capital requirement and lack of future funding.

Recommendation 7.3:

The Company should disclose if it has an internal audit function.

The Company does not have an internal audit function. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity, to justify the formation of an internal audit function at this time. The Board as a whole regularly evaluates and improves the effectiveness of its risk management (refer above) and internal control processes.

Recommendation 7.4:

The Company should disclose whether it has any material exposure to economic, environmental and social sustainability risks and, if it does, how it manages or intends to manage those risks.

The Company is of the view that it has adequately disclosed the nature of its operations and relevant information on exposure to economic, environmental and social sustainability risks. Other than general risks associated with the mineral exploration industry, the Company does not currently have material exposure to environmental and social sustainability risks.

Principle 8 – Remunerate fairly and responsibly

Recommendation 8.1:

The Board should have a Remuneration Committee.

The Company does not have a remuneration committee. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity to justify the formation of separate or special committees at this time. The Board as a whole is able to address the governance aspects of the full scope of the Company's activities and to ensure that it adheres to appropriate ethical standards. In particular, the full Board considers those matters that would usually be the responsibility of a remuneration committee. The Board considers that no efficiencies or other benefits would be gained by establishing a separate remuneration committee.

Recommendation 8.2:

Companies should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.

The Company provides disclosure of all Directors and executives remuneration in its annual report.

The remuneration policy of the Company has been designed to align directors' objectives with shareholder and business objectives by providing a fixed remuneration component which is assessed on an annual basis in line with market rates. The Board believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best directors to run and manage the company. Directors' remuneration is approved by resolutions of the Board. The Board's policy for determining the nature and amount of remuneration for Board members is as follows:

STATEMENT OF CORPORATE GOVERNANCE PRACTICES (Continued)

Non-Executive Directors

The Board policy is to remunerate Non-Executive Directors at market rates for comparable companies for time, commitment and responsibilities. Payments to the Non-Executive Directors are reviewed annually, based on market practice, duties and accountability. The maximum aggregate amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at the Annual General Meeting. Fees for Non-Executive Directors are not linked to the performance of the Company. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company. Non-Executive Directors are entitled to receive incentive options or securities (subject to shareholder approval) as it is considered an appropriate method of providing sufficient reward whilst maintaining cash reserves. There is no scheme to provide retirement benefits, other than statutory superannuation, to Non-Executive Directors.

Executives

The senior executives of the Company are the Executive Chairman, the Group Exploration Manager and Company Secretary. The Company is committed to remunerating its senior executives in a manner that is market-competitive and consistent with best practice as well as supporting the interests of shareholders. Consequently, the remuneration of senior executives may be comprised of the following:

- fixed salary that is determined from a review of the market and reflects core performance requirements and expectations;
- a performance bonus designed to reward actual achievement by the individual of performance objectives and for materially improved Company performance;
- participation in any option or securities incentive scheme with thresholds approved by shareholders;
- statutory superannuation.

By remunerating senior executives through performance and long-term incentive plans in addition to their fixed remuneration, the Company aims to align the interests of senior executives with those of shareholders and increase performance. The value of shares and incentive securities granted to senior executives is calculated using the Black-Scholes pricing models as described in the Financial Statements.

The objective behind using this remuneration structure is to drive improved performance and thereby increase shareholder value as well as aligning the interests of executives and shareholders.

The Board may use its discretion with respect to the payment of bonuses, incentive share options and other incentive payments.

For details of remuneration paid to Directors and officers for the financial year please refer to the Remuneration Report forming part of the Directors' Report and the Financial Statements generally.

Recommendation 8.3:

A Company which has an equity based remuneration scheme should have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme and disclose that policy or summary of it.

The Company has an equity based remuneration scheme which is affected by this recommendation. The Company's Employee Option Plan however does not permit issue of options to directors under the Plan. Recipients of equity-based remuneration (eg. incentives options or other incentive securities) both within the terms of the Option Plan and outside any specific plan are not permitted to enter into any transactions that would limit the economic risk of options or other unvested entitlements.
